

# Callander

## Community Information

The Callander Community Profile has been produced to give an insight into the Callander community as defined by the Callander Community Council boundary. It gives an indication of the structure and capacity of Callander and was produced to assist with the development of the Callander Community Action Plan. If you would like a copy of the Community Action Plan please contact Dan McKirgan on 01877 330184.

Through the Action Plan, the Callander community has outlined the following vision for the area:

To become the Hub of the National Park By working in partnership with public agencies and stakeholders to develop quality all year round services and facilities, to provide good information on what Callander has to offer, to provide good food and a range of accommodation and to work with other communities to develop and brand the Trossachs as a special place within the Park.

To promote healthy activities in the Heart of the Park

By developing a network of low level trails and community woodlands, by developing services and facilities specially geared to outdoor activities and to promote facilities such as the golf course, leisure centre and paths and woodland.

To become a vibrant community offering opportunities to residents By developing a range of businesses and employment opportunities, by ensuring that there are good facilities for children and young people and by deciding and arguing for Callander's optimum size.
